Independent Auditors' Report on review of condensed interim financial statements

To the shareholder of HATTHA Bank Plc. (formerly known as Hattha Kaksekar Limited)

Introduction

We have reviewed the accompanying 30 June 2021 condensed consolidated interim financial statements of HATTHA Bank Plc. (formerly known as Hattha Kaksekar Limited) and its subsidiary (together referred to as "the Group") and the condensed separate interim financial statements of the HATTHA Bank Plc. ("the Bank"), (collectively referred to as "condensed interim financial statements") which comprise:

- the condensed consolidated and separate interim statements of financial position as at 30 June 2021;
- The condensed consolidated and separate interim statements of profit or loss and other comprehensive income for the three-month and six-month periods ended 30 June 2021;
- The condensed consolidated and separate interim statements of changes in equity for the three-month and six-month periods ended 30 June 2021:
- The condensed consolidated and separate interim statements of cash flows for the three-month and six-month periods ended 30 June 2021; and
- Other explanatory notes to the condensed interim financial statements as set out on pages 4 to 57.

Management is responsible for the preparation and presentation of these condensed interim financial statements in accordance with Cambodian International Accounting Standard 34, "Interim Financial Reporting". Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of review

We conducted our review in accordance with Cambodian International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Cambodian International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material respects, in accordance with Cambodian International Accounting Standard 34, "Interim Financial Reporting".

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE THREE-MONTH AND SIX-MONTH PERIODS ENDED 30 JUNE 2021

1. REPORTING ENTITY

HATTHA Bank Plc. (the "Bank") transforming from Hattha Kaksekar Limited (HKL) micro-finance deposit taking institution, obtained license to carry out banking operations from the National Bank of Cambodia ("NBC") on 5 August 2020 and endorsed this change in the amended Memorandum and Associations dated 26 August 2020 with the certificate of incorporation No. 00005355 dated 3 April 2001 issued by the Ministry of Commerce.

On 19 October 2001, under license number 2, the NBC granted HKL a license to conduct micro-finance business for a three-year period which expired on 19 October 2004. On 12 July 2004, HKL obtained a new license for a three-year period which expired on 19 October 2007. The NBC granted an indefinite micro-finance license to the Company effective from 8 August 2007.

On 29 January 2010, the NBC granted HKL a license to conduct the deposit taking business.

On 9 October 2013, HKL obtained approval from NBC for operating Mobile Banking exclusively covering the services namely (1) balance inquiry, (2) account statement summary, (3) search ATM location, (4) fund transfers, (5) mobile top-up, (6) loan repayment, (7) check interest rate, (8) check exchange rate, (9) loan repayment alert, (10) advertising through mobile device and (11) SMS notification.

NBC approved HKL to be an Insurance Agent by acting as Referral for Prévoir Kampuchea Micro Life Insurance Plc. on 19 December 2014, for Sovannaphum Life Assurance Plc. on 29 December 2017 and for Forte Insurance (Cambodia) Plc. on 09 February 2021.

The principal activity of the Bank includes commercial bank activities.

The Bank operates in 177 offices (including Head Office) located in Phnom Penh and all provinces of the country with the primary source of income being interest income earned on providing loans to customers.

The Bank's registered office is located at No. 606, Street 271, Sansam Kosal 3 Village, Sangkat Boeng Tumpun 1, Khan Mean Chey, Phnom Penh, Kingdom of Cambodia.

Hattha Services Co., Ltd., the subsidiary, was incorporated on 8 October 2019 by the Bank and Saray Holding Limited, a private limited company incorporated in Cambodia. The principal activity of the subsidiary is buying, selling, renting and operating of self-owned or leased real estate.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (CONTINUED) FOR THE THREE-MONTH AND SIX-MONTH PERIODS ENDED 30 JUNE 2021

2. BASIS OF ACCOUNTING

2.1 Basis of preparation

These condensed interim financial statements have been prepared in accordance with CIAS 34 Interim Financial Reporting, and should be read in conjunction with the Group and the Bank's last annual consolidated and separate financial statements as at and for the year ended 31 December 2020 ("last annual financial statements"). They do not include all of the information required for a complete set of CIFRSs financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group and the Bank's financial position and performance since the last annual financial statements.

The condensed interim financial statements of the Group and the Bank were authorised for issue by the Board of Directors on 13 August 2021.

2.2 Functional and presentation currency

The Group and the Bank transact its business and maintains its accounting records in three currencies, Khmer Riel ("KHR"), United States Dollars ("US\$") and Thai Baht ("THB"). Management have determined the US\$ to be the functional and presentation currency of the Group; and the Bank as it reflects the economic substance of the underlying events and circumstances of the Group and the Bank.

Transactions in currencies other than US\$ are translated into US\$ at the exchange rate ruling at the dates of the transactions. Monetary assets and liabilities denominated in currencies other than US\$ at the reporting date are translated into US\$ at the rates of exchange ruling at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on translation are recognised in profit or loss.

2.3 Presentation in Khmer Riel

The translation of the US\$ amounts into Khmer Riel ("KHR") is presented in the condensed interim financial statements to comply with the Law on Accounting and Auditing dated 11 April 2016 using the closing for the year and average rates for the period, as announced by the National Bank of Cambodia.

Assets and liabilities for each statement of financial position presented are translated at the closing rate ruling at each reporting date whereas income and expense items for each statement of profit or loss and other comprehensive income and cash flow items presented are translated at the average rate for the period then ended. All resulting exchange differences are recognised in other comprehensive income ("OCI").

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (CONTINUED) FOR THE THREE-MONTH AND SIX-MONTH PERIODS ENDED 30 JUNE 2021

2. BASIS OF ACCOUNTING (continued)

2.3 Presentation in Khmer Riel (continued)

The condensed interim financial statements presented in KHR are based on the following applicable exchange rates per US\$1:

	Closing rate	Average rate
30 June 2021	4,075	4,061
30 June 2020	4,093	4,076
31 December 2020	4,045	4,077

3. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of condensed interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgements made by the management in applying the Group's and the Bank's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual consolidated and separate financial statements.

Critical judgments in applying the accounting policies

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the condensed interim financial statements included the followings:

Business model assessment

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Group and the Bank determine the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Group and the Bank monitor financial assets measured at amortised cost that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Group and the Bank's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (CONTINUED) FOR THE THREE-MONTH AND SIX-MONTH PERIODS ENDED 30 JUNE 2021

3. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Critical judgments in applying the accounting policies (continued)

Significant increase of credit risk

Expected Credit Loss ("ECL") are measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL assets for stage 2 and stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. In assessing whether the credit risk of an asset has significantly increased, the Group and the Bank take into account qualitative and quantitative reasonable and supportable forward-looking information.

Establishing groups of assets with similar credit risk characteristics

When ECLs are measured on a collective basis, the financial instruments are grouped on the basis of shared risk characteristics. The Group and the Bank monitor the appropriateness of the credit risk characteristics on an ongoing basis to assess whether they continue to be similar. This is required in order to ensure that should credit risk characteristics change there is appropriate re-segmentation of the assets. This may result in new portfolios being created or assets moving to an existing portfolio that better reflects the similar credit risk characteristics of that group of assets.

Re-segmentation of portfolios and movement between portfolios is more common when there is a significant increase in credit risk (or when that significant increase reverses) and so assets move from 12-month to lifetime ECLs, or vice versa, but it can also occur within portfolios that continue to be measured on the same basis of 12-month or lifetime ECLs but the amount of ECL changes because the credit risk of the portfolios differ.

Models and assumptions used

The Group and the Bank use various models and assumptions in measuring fair value of financial assets as well as in estimating ECL. Judgement is applied in identifying the most appropriate model for each type of asset, as well as for determining the assumptions used in these models, including assumptions that relate to key drivers of credit risk.

Key sources of estimation uncertainty

Information about key assumptions and estimation uncertainties that have the most significant effect on the amounts recognised in condensed interim financial statements includes the followings:

Establishing the number and relative weightings of forward-looking scenarios for each type of product and determining the forward-looking information relevant to each scenario

When measuring ECL the Group and the Bank use reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (CONTINUED) FOR THE THREE-MONTH AND SIX-MONTH PERIODS ENDED 30 JUNE 2021

3. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Key sources of estimation uncertainty (continued)

Probability of default (PD)

PD constitutes a key input in measuring ECL. PD is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

Loss Given Default (LGD)

LGD is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.

Incorporation of forward-looking information

The Group and the Bank analyses forward-looking information by using the statistical regression model to assess whether the credit risk of an instrument has increased significantly to measure ECL.

The Group and the Bank formulate three economic scenarios: a base case, which is the median scenario assigned a 34% probability of occurring, and two less likely scenarios, one upside 28% and one downside assigned a 38% probability of occurring. The base case is aligned with information used by the Group and the Bank for other purposes such the strategic planning and budgeting. External information considered includes economic data and forecasts published by governmental bodies (National Bank of Cambodia) and international bodies such as World Bank and Bloomberg.

Weightage scenario	Base	Bad	Good
Weigi itage sceriario	34%	38%	28%

Based on the forward-looking analysis, the Bank applied the forward-looking scalar at 1.25 for the 12-month and lifetime ECL.

The forward-looking model is updated annually using the up to date macroeconomic variables ("MEVs") and weighted scenario with proper business judgement into the model and forecasting resource from Asian Development Bank ("ADB"), World Bank, Internal Monetary Fund ("IMF") and National Bank of Cambodia ("NBC").

The ECL was estimated based on a range of forecast economic conditions as at reporting date. The Novel Coronavirus (Covid-19) outbreak has spread across mainland China, Cambodia and beyond, causing disruption to business and economic activity. The impact on Gross Domestic Product ("GDP") and other key indicators will be considered when determining the severity and likelihood of downside economic scenarios that are used to estimate ECL.

The calculation of the ECL in this current environment is subject to significant uncertainty. Management provides its best estimate on the possible outcomes of Covid-19 on the Group and the Bank, however, this estimate may move materially as events unfold. Consequently, this number should not be seen as firm guidance or a forecast as to the final financial impacts expected. In the event the impacts are more severe or prolonged than anticipated in the scenarios, this will have a corresponding impact on the ECL, the financial position and performance of the Group and the Bank.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (CONTINUED) FOR THE THREE-MONTH AND SIX-MONTH PERIODS ENDED 30 JUNE 2021

3. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Fair value of financial assets and liabilities

Financial instruments comprise financial assets, financial liabilities and off-balance sheet instruments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group and the Bank have access at that date. The information presented herein represents the estimates of fair values as at the financial position date.

Quoted and observable market prices, where available, are used as the measure of fair values of the financial instruments. Where such quoted and observable market prices are not available, fair values are estimated based on a range of methodologies and assumptions regarding risk characteristics of various financial instruments, discount rates, estimates of future cash flows and other factors.

Fair value information for non-financial assets and liabilities are excluded as they do not fall within the scope of CIFRS 7: *Financial Instruments Disclosures* which requires the fair value information to be disclosed. These include investment in subsidiaries and property and equipment.

The fair value of the Group and the Bank's financial instruments such as cash and short-term funds, balances with the NBC, deposits and placements with banks and other financial institutions, deposits from customers and other financial institutions, other assets, other liabilities and short-term borrowings are not materially sensitive to shifts in market profit rate because of the limited term to maturity of these instruments. As such, the carrying value of these financial assets and liabilities at financial position date approximate their fair values.

Fair value hierarchy

CIFRS 7 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources and unobservable inputs reflect the Group and the Bank's market assumptions. The fair value hierarchy is as follows:

Level 1 – Quoted price (unadjusted) in active markets for the identical assets or liabilities. This level includes listed equity securities and debt instruments.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3 – Inputs for asset or liability that are not based on observable market data (unobservable inputs). This level includes equity instruments and debt instruments with significant unobservable components.

The fair value of a financial liability with a demand feature (e.g. a demand deposit) is not less than the amount payable on demand, discounted from the first date on which the amount could be required to be paid.

The Group and the Bank recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

In accordance with Cambodian law on taxation, the Bank has an obligation to pay corporate income tax of either the income tax at the rate of 20% of taxable income or the minimum tax at 1% of gross revenue, whichever is higher.

Starting from fiscal year 2020, the Bank has implemented the new Prakas No. 183 ("the new Prakas") on Implementation Guidelines on Tax Incentives on Tax on Income to New Securities Issuing Enterprises issued by the Ministry of Economy and Finance on 25 February 2020. According to the Prakas, the enterprise issuing debt securities equal to or less than 20% of its total assets is granted tax incentives on tax on income over 3 years by reducing the amount of tax on income based on the pro-rata percentage of value of debt securities over total assets, dividing by base 20.001% and multiplying by 50%.

However, since the Bank issues debt securities less than 20% of its total assets based on the Prakas, the Bank accrued the tax incentive by reducing 6% of tax on income as of 31 December 2020.

On 4 November 2020, the Bank submitted a letter to the Securities and Exchange Regulator of Cambodia ("SERC") (previously known as Securities and Exchange Commission of Cambodia ("SECC")) requesting tax incentive over tax on income for the fiscal year 2020 and the prepayment of tax on income 1% for the fiscal year 2021. On 17 March 2021, the Bank received the responding letter from SERC to implement the new Prakas and the prepayment of tax on income 1%. On 23 March 2021, the Bank submitted the clarification letter to GDT regarding to tax incentive and prepayment tax on income 1%. The Bank received the approval from the GDT on the tax incentive based on the new Prakas and prepayment of tax on income 1% for the fiscal year 2020 and 2021 on 6 April 2021.

- (i) Interest rate designated in cash flow hedges was applied on 1 January 2020. The designated hedged exposure is US\$80,000,000 layer of the Bank's US\$ fixed deposits portfolio. The amount is exactly matched notional amount of the hedging instrument and this results in a hedge ratio of 1:1 or 100%. This ratio is consistent with the strategy to hedge the total exposure arising from refinancing of fixed deposits. Cash flows hedge reserves amounting to US\$2,598,662 and its related deferred tax assets amounting US\$519,732 were recognised in OCI (2020: Cash flows hedge reserves amounting to US\$5,504,733 and its related deferred tax assets amounting US\$1,100,948 were recognised in OCI).
- (ii) On 12 January 2017, the Group and the Bank entered into agreements with Krungsri for interest rate swap totalling US\$54 million, effective from 15 May 2017 to 14 May 2021. On 7 February 2018, the Group and the Bank entered into another agreement with Krungsri for interest rate swap of US\$55 million, effective from 23 February 2018 to 15 June 2022. This is to manage the Group and the Bank's exposure to interest rate risk of its funding.

33. TAX CONTINGENCIES

On 19 March 2019, the General Department of Taxation ("GDT") issued a notice of tax reassessment to the Group and the Bank to pay reassessed taxes of KHR 31,255,677,651 (approximately US\$7.7 millions) for the fiscal year 2016.

On 11 April 2019, the Group and the Bank filed a tax objection letter to the GDT protesting to the reassessed taxes. As a result, the Bank received the 2nd Notice of Tax Reassessment from the GDT dated 9 July 2019 reimposing taxes in total amount of KHR 30,958,899,567 (approximately US\$7.6 millions). The Group and the Bank have not made provision at this stage as the Group and the Bank believe that there are reasonable grounds to challenge the assessment as stated in the tax law and regulations mentioned in its objection letter.

The Group and the Bank have engaged tax advisor to help on this matter and filed 2nd protest letter to the GDT on 30 July 2019. On 8 January 2020, the Group and the Bank received a response to the 2nd protest letter from the GDT. There is no change in the reassessment amount. However, the Group and the Bank have consulted with the tax advisor and it is believed that the Group and the Bank would have reasonable grounds to challenge the case. Therefore, the Group and the Bank decided to move on with 3rd protest requesting the GDT to transfer the case to the litigation department. The letter was signed on 23 January 2020 and submitted to the tax agent for further process to the GDT.

On 2 April 2021, the Group and the Bank received a response to the 3rd protest letter from the GDT with no change in the reassessment amount. The Group and the Bank submitted the protest letter to the Ministry of Economy and Finance on 3 May 2021. The Group and the Bank have consulted with the tax advisor and it is believed that the Group and the Bank would have reasonable grounds to challenge the case. The Group and the Bank have not recorded any provision tax liability as at 30 June 2021. The outcome of the ultimate tax liabilities for this assessment is unknown.

34. EVENT SINCE THE REPORTING DATE

Novel coronavirus and impact on loans to customers

On 17 April 2021, responding to the potentially serious threat the COVID-19 presents to public health in certain areas, the Royal Government of Cambodia ("RGC") took measures to contain the outbreak by limiting the movement of people, including the 'lock-down' of Phnom Penh Capital and Takhmao City, among others for two weeks and subsequently extended for one more week. On 28 July 2021, the RGC made an announcement to lockdown some provinces excluding Phnom Penh Capital and limiting the movements of people within the whole country for 14 days until 12 August. Given the unprecedented and pervasive impact of changing circumstances surrounding the COVID-19 pandemic, there is inherently more uncertainty associated with the future operating assumptions and expectations. The estimate may move materially as events unfold. The Group and the Bank will keep continuous attention on the situation of the COVID-19 and react actively to its impact on the financial position and operating results of the Group and the Bank in future periods.
